

## **FIVE YEAR INNOVATIVE PLAN FOR THE IMPROVEMENT OF BHADRAN**

Dear Bhadransasi's and well wishers of Bhadrans,

We all cherish the wonderful days of our childhood spent in our native town - Bhadrans. Our motherland has given so much to us and now it is time for us to give something in return. The members of Bhadrans Samaj are proposing the following Five Year Plan that has been carefully developed for the enrichment and further development of Bhadrans as well as the betterment of Bhadransasi's living abroad.

Our plan consists of three major components: (1) Education, (2) Infrastructure, and (3) Hospitals. Plan details are as follows:

**(1) Education:** The improvement of Educational facilities including but not limited to Primary Schools, Secondary Schools, and College. The school system is in severe need of a facelift. Your contribution will not only allow for renovations, updated school supplies but will also provide Financial aid to students in need.

**(2) Infrastructure:** India's Presidential Award was given to Bhadrans for the cleanest town in Gujarat/India, officially declaring it Gujarat's Dust Free town. Cement/concrete blocks have been placed throughout the township resulting in paved streets. Though this is a huge step forward, there is a lot more that needs to be done. Special attention needs to be given to the Sewerage system, which is 60 years old and in severe need of improvement.

**(3) Hospital:** Our Hospital is now 5 years old and is currently providing excellent healthcare to Bhadrans as well as our surrounding areas. However, there is still room for improvement. We are in urgent need of additional medical equipment to better serve the patients. Equipment needs include (1) Ambulance, (2) Blood Analyzer, (3) X Ray machines etc.

YOUR active participation is absolutely necessary for the successful completion of the above projects. We are suggesting the following as a means to bring about this improvement:

We request that all Bhadransasis and well-wishers living in the USA and Canada make a minimal contribution of only \$ 200 per year for the next 5 years. **This amounts to less than 55 Cents per day. That is less than the cost of a can of coke.** Can we not afford such a small amount for our beloved hometown? We feel that if every Bhadransasi living in USA/Canada contributes this minimal 55 cents per day for the next 5 years, we will be able to collect a staggering "1 Million Dollars" over the course of 5 years. We plan to invest 50% of the collected amount on the projects mentioned above and the remaining 50 % would be placed in an interest-bearing account for future US projects and unforeseen circumstances that may occur. **We will start distributing funds as soon as Bhadrans Samaj establishes its first 250 contributors.**

The success of all the projects mentioned above ultimately depends upon your active co-operation. Please give priority to this humanitarian work for our mother/father land. Your 55 cents per day will go a long way. Samaj is in need of your help and co-operation. Let us repay our due by generously giving the monetary help that our home town-MADARE VATAN truly deserves and requires.

The names of all the contributors along with the recipient's names and donated amounts will be published on our website. You may access the site via the following link: [www.Bhadransamaj.com](http://www.Bhadransamaj.com)

Satellite Centers have been established in the following areas for easy operation of such projects:
